Dicota Accessories from Hypertec

USB adapter set

The Gate adapter set is suitable for any conventional USB connection. Many devices which can be flexibly used on the road (digicam, mp3 player, numerical keypad, card readr, analog modem (RJ11) as well as digital ethernet (RJ45)) can now easily be connected to a computer using the Gate adapters.

The cable length of 150cm can be easily extended with USB cables the user will already have, The cable provided is self-retracting and effectively prevents cable chaos and saves valuable minutes usually spent un-tangling.

Gate and the respective adapters are delivered in a high-quality Koskin case, so all parts are immediately within reach.

Specification:
